PROFESSIONAL SUMMARY

Results-driven Fullstack Web Developer with 4+ years of experience designing, building, and maintaining web applications and platforms. Proficient in React, TypeScript, PHP, and MySQL, with hands-on experience building production systems including role-based access control, approval workflows, and multi-tenant architectures. Skilled at translating real business requirements into clean, scalable, and maintainable code.

WORK EXPERIENCE

Web Development Instructor / Branch Manager

July 2024 – Present

Digital World Tech Academy — Lagos, Nigeria

- Manage day-to-day branch operations, overseeing staff and student activities.
- Deliver practical web development training to students, covering frontend and backend fundamentals.
- Contribute to frontend development and the LMS module of the academy's full-stack platform (React + PHP).
- Monitor student progress and provide 1-on-1 mentorship to ensure job-readiness.

Frontend Developer

2024

Aevo Technologies — Remote

- Built the landing page and admin dashboard for Best Mobile, a mobile vehicle repair platform connecting car owners with verified technicians, with separate user and technician experiences.
- Built Qaxum end-to-end, a digital business card and WhatsApp store platform enabling African businesses and creators to launch one-page profiles and storefronts.
- Took on select backend tasks alongside core frontend responsibilities across both projects.

Freelance Web Developer

2021 – Present

Self-Employed — Lagos, Nigeria

- Built a full e-commerce solution for Device Care Consult (Ghana) using WordPress, WooCommerce, and Paystack integration.
- Designed and developed custom websites and landing pages with a focus on performance and clean UX, including FOMGLOBAL KlinServices, a marketing site for an environmental services company.
- Provided ongoing website maintenance, speed optimization, and technical support for client websites.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, TypeScript

Backend: PHP, Node.js, MySQL, REST APIs

CMS & E-Commerce: WordPress, WooCommerce, Elementor, Paystack

Tools: Git, GitHub, VS Code, Figma

EDUCATION

Bachelor of Science in Education (B.Sc.Ed), Computer Science

Tai Solarin University of Education — Ogun State, Nigeria

CERTIFICATIONS

- Web Development Certificate — GlobalTech Computer Institute
- WordPress Development & SEO Optimization — Digital World Tech Academy

NOTABLE PROJECTS

Full-Stack Business Management System — reports.digitalworldtech.academy | React, TypeScript, PHP, MySQL

- Built a multi-subsidiary internal management platform with role-based access control, used across multiple branches of a real organization.
- Implemented a report submission and approval workflow, plus a task management system with subtasks, comments, attachments, and real-time notifications.
- Developed a secure PHP REST API with session-based authentication and CSRF protection, paired with a React + TypeScript frontend using React Query and React Hook Form.

FOMGLOBAL KlinServices — fomglobalklinservices.com

- Built a multi-page marketing website for a Lagos-based environmental and sanitation company covering waste management, fumigation, cleaning, and pest control services.
- Structured Home, About, Services, Gallery, and Contact pages with a service showcase, animated stats counters, and a client testimonial section to build trust with prospective clients.
- Added a WhatsApp click-to-chat button and prominent "Get A Quote" calls-to-action to shorten the path from visitor to lead.

Best Mobile — bestmobile-admin-website.vercel.app | Aevo Technologies

- Built the landing page and admin website for an Uber-style mobile vehicle repair platform, connecting car owners with verified technicians for on-location service.
- Supported separate user and technician experiences, including request submission, cost estimates, technician verification, and Stripe-based payments.

Qaxum — qaxum.com | Aevo Technologies

- Built the entire platform end-to-end: a digital business card and WhatsApp store builder for African businesses and creators.
- Delivered profile/store creation, services and gallery sections, WhatsApp integration, multi-language support, and a public business directory.

Device Care Consult — devicecaregroup.com

- Built a full e-commerce store with WooCommerce & Paystack for a Ghana-based electronics business.
- Handled product catalog setup, payment integration, and ongoing site maintenance for the client.

Digital World Tech Academy Platform — digitalworldtech.academy

- Contributed to the frontend and LMS module of the academy's full-stack React/PHP platform.
- Worked on student progress tracking features used daily by instructors and students.
